

Epiform[®] FOR MAGNETIC BONDING – LIQUID RESIN

Magnetic Bonding Epiform[®] is a resin used for motors. Various grades are available, with high adhesive strength and thus, easily stackable.

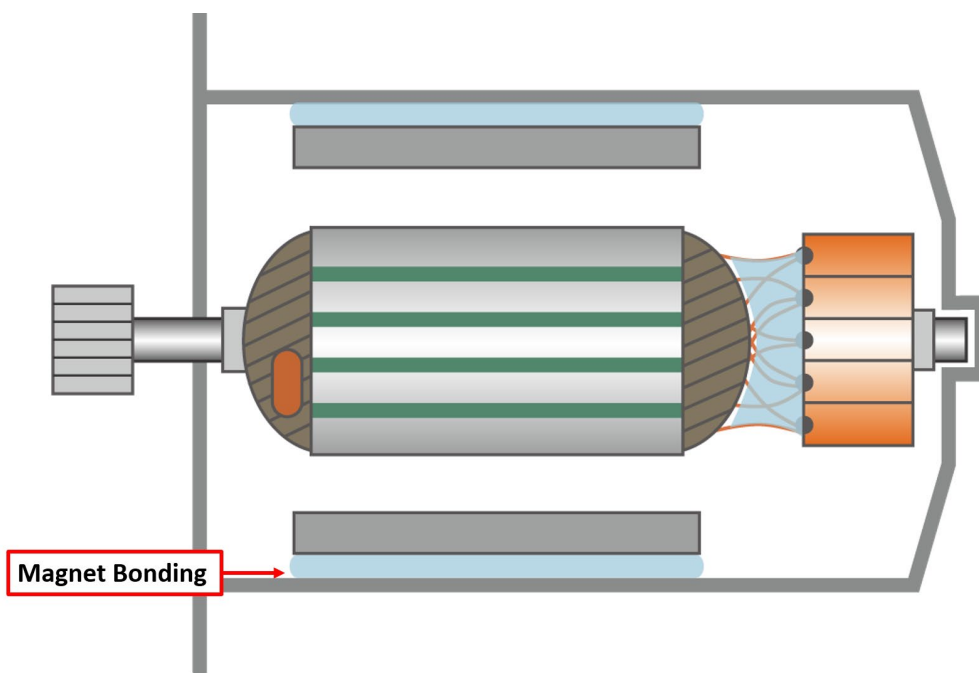

Liquid Resins

Applications	Features	Product Name	Curing Condition (°C/hour)	Mixing Ratio (Weight %)	Pot Life (hour / at 25°C)	Tg (°C)
Magnet Bonding	High Strength / Impact Resistance	E-518	150/1	One-Part	3-month	110
	High Heat Resistance	E-8839	150/0.5	One-Part	3-month	155

All numbers are representative values.

Features

1. Magnet Bonding Adhesives.
 - One-part adhesives with excellent workability and storage stability.
 - High adhesive strength.
